

The picture (above) resembles the metal surface in your engine. The Petron Plus™ Formula 7 molecules (as shown above on the right) are very small, 0.1 micron in size compared to solid additives (i.e. Teflon, PTFE, Moly, Graphite, Copper, Silver, Lead, etc.) that range from 2.0 to 10.0 microns in size. This allows Petron Plus™ Formula 7 to penetrate every crevice in an engine or gear. If we could look at the metal surface in your engines or gearboxes, it would look like the Rocky Mountains, with hills and valleys as shown. The minute size of the Petron Plus™ Formula 7 molecules allows it to be very dense. This in turn allows Petron Plus™ Formula 7 to completely fill each engine pour of the metal and completely cover the engine or gears surface, preventing corrosion and rust, and reducing friction between metal-to-metal contact.

The negative charge of the Petron Plus™ Formula 7 molecule is what gives it staying power. Metal becomes positively charged when heated, so the negative charge of Petron Plus™ Formula 7 creates a magnetic bond that creates a high shear strength layer of lubricant that even advanced oils can't match.

PETRON PLUS™ Formula 7 ULSD All Season Diesel Fuel Conditioner with Lubricity

Part No. 20100

Ultra Low Sulfur Diesel (ULSD) fuel will help reduce emissions, but it will also lead to many more consequences in your vehicle. The most obvious problems are higher fuel costs, lower lubricity, lower BTU's which means less energy and power, lower mileage, less stable fuel, and more deposits in the fuel systems.

Petron Plus™ ULSD All Season Diesel Fuel Conditioner with Lubricity 20100 is a premium diesel fuel supplement package.

Today's diesel engines have to meet rigid standards for both fuel economy and emissions control. As a result, modern engines operate in highly sensitive environments.

Deposits anywhere in the intake system can cause driveability problems. Thus, the need for a superior deposit control product like 20100 is even greater.

This product helps clean engine deposits from fuel injectors, and ring belt area; thereby restoring engine performance, increasing fuel economy, smoothing out rough idling, and protects against rust and corrosion.

If used on a regular basis (once every oil change), it will help control deposit build-up.

Product 20100 will treat 20 gallons of diesel fuel.

PETRON PLUS™ Formula 7 ULSD All Season Diesel Fuel Conditioner with Lubricity

Part No. 20150

Petron Plus™ Ultra Low Sulfur Diesel (ULSD) fuel conditioner is a more concentrated product than the 20100. It will help reduce emissions, plus it will also help solve many more problems in your vehicles fuel system. The most obvious problems are higher fuel costs, lower lubricity, lower BTU's which means less energy and power, lower mileage, less stable fuel, and more deposits in the fuel systems.

Petron Plus™ ULSD All Season Diesel Fuel Conditioner with Lubricity 20150, 20175 & 52051 are premium diesel fuel supplement package.

Today's diesel engines have to meet rigid standards for both fuel economy and emissions control. As a result, modern engines operate in highly sensitive environments.

Deposits anywhere in the intake system can cause driveability problems. Thus, the need for a superior deposit control product like 20150 is even greater.

These product helps clean engine deposits from fuel injectors, and ring belt area; thereby restoring engine performance, increasing fuel economy, smoothing out rough idling, and protects against rust and corrosion.

If used on a regular basis (once every oil change), it will help control deposit build-up.

	Treats Gallons of Diesel Fuel	
	WINTER	SUMMER
32 oz.	250 gallons	500 gallons
1 gallon	1,000 gallons	2,000 gallons

PETRON PLUS™ Automatic Transmission Supplement

Part No. 14000

Formulated for all automatic transmissions from the highest quality petroleum base stocks and fortified with Petron Plus™ Formula 7 to enhance oxidation resistance and provide maximum protection against wear, rust and corrosion

Multi-purpose, super lubricant for general maintenance use from automotive, truck to heavy industrial fleet applications

Super lubricating film that coats and penetrates metal surfaces to provide the longest lasting lubricating action

Promotes smoother, faster shifting and helps extend transmission life and reduce operating temperature

All manual transmissions that use ATF

PETRON PLUS™ Power Steering Fluid and Supplement

Part No. 14010

Formulated for all power steering systems from the highest quality petroleum and synthetic base stocks

Fortified with Petron Plus™ Formula 7 additive to enhance oxidation resistance and provide maximum protection against wear, rust and corrosion

A super lubricating film that coats and penetrates metal surfaces and provides the longest-lasting lubricating action

PETRON PLUS™ Formula 7 4-Cycle Lube

Part No. 12127

Petron Plus™ Formula 7, 4-Cycle Lube is made from a unique formulation of the highest quality petroleum base stocks available fortified with Petron Plus™ Formula 7 state of the art additive technology to enhance oxidation resistance and provide maximum protection against wear, rust, and corrosion in 4-cycle engines.

Petron Plus™ 4-Cycle Lube is a multi-purpose super lubricant designed for 4-cycle engines. It is designed to help increase engine operating life, helps increase horsepower and performance output, helps increase gas mileage, and helps lower operating temperature, It has a super lubricating film that coats and penetrates metal surfaces to help provide the longest-lasting lubricating action available.

Petron Plus™ 4-Cycle Lube can be used in any 4-cycle motorcycle, or any air-cooled 4-cycle engine on any kind of equipment or machinery.

The Proven Solution

The effectiveness of the patented Petron Plus™ formula had been proven for over 30 years by independent laboratories and by leading companies around the world. Just a few of the companies who have used Petron Plus™/Petronomics products:

AT&T

Cargill

Boeing

General Electric

McDonnell Douglas

Lone Star Cement

Disney World

Morton Salt

Pacific Bell

New York City Transit

Rough Steel

Ford Motor Co.

US Navy

Koch Industries

Caesar's Palace

Disneyland

UCLA

Cessna Aircraft Co.

McCall Pattern Co.

Kenworth Trucking

Lightnin (gear box co.)

Delphi

Otis Elevator

L.A. Public Schools

FAA (Federal Aviation Administration)

Raytheon Aircraft Co.

General Motors Corp.

Archer Daniels Midland

L.A. Dept. of Water & Power

British Nuclear Fuels

Rolls Royce Aerospace

NASA (EG&G) Kennedy Space Center

ESCO Co.

Tinker Air Force Base

British Aerospace

LA Super Shuttle

Collingwood Grain Co.

Anheuser Busch

Bosch Corp.

Warner Robbins A.F. Base

Henry Ford Hospital

Sony

Vauxhall Motor Co.

Halliburton

Olin Defense Systems

Black & Decker

Mercedes Benz Truck, UK

Jaguar Cars Ltd.

Massey-Ferguson

Fisher Nuts (P&G)

PSC (Potash Corp.)

Major Race Teams

Major Oil Companies

Keystone Cement Co.

Homeland Security

Westvaco Meade Paper

Ramstein Air Base, Germany

Interstate Brand Corp.

European Gas Turbines, LTD.

Jefferson/Smurfit Corp

Lubricants for Any Application:

- Engine Oils & Supplements
- Automotive Transmission & Gear Box Products
- Fuel Supplements
- Air Conditioning & Cooling System Products
- Automotive Lubes & Cleaning Products
- Industrial Aerosol Products
- Industrial Transmission & Gear Box Products
- Marine & Railroad Products

- Grease Products
- Hydraulic Products
- Turbine Oils
- Compressor Oils
- Natural Gas Compressor Oils
- Refrigeration Oils
- Metalworking Products
- Enviro Metalworking Products
- Industrial Cleaning Products
- Food Grade Products
- 2-Cycle Products

PETRON PLUS™ = Protection, Performance & Profits

Our advanced lubrication technology can make the difference.

Petron Plus™ lubrication products are one of the easiest and most cost-effective ways to improve performance and reduce mechanical failure. Petron Plus™ formula is a semi-synthetic based, modified hydrocarbon molecule that bonds to metal surfaces and smoothes them out, reducing the friction between them. Reduced friction delivers a host of benefits that will pump up your bottom line:

- Helps to increase longer operating life
- Helps to decrease downtime
- Helps to lower maintenance expenses
- Helps increase horsepower and performance
- Helps lower energy/fuel consumption
- Helps increase lubricant life with less contamination

Petron Plus™ can be added to virtually any petroleum and most synthetic oils, and with 30 years of use by leading companies, it's proven to work. So if you want greater protection, performance and profit, get Petron Plus™.

A World Class Company

We have distributors throughout the United States and other parts of the world. We realize how important it is to have products and/or a representative when you need them. Other technical service personnel are available at the Corporate Headquarters to answer questions and make recommendations in all facets of equipment lubrication and service.

For more information on Petron Plus™ and Petronomics® products, and delivery, contact your representative or visit our website.

Guaranteed...because we value your investment as much as you do!

PETRON PLUS™ Engine Conditioner

Part No. 12121

- Formulated for gasoline and propane engines with the highest quality petroleum and synthetic base stocks and fortified with Petron Plus™ Formula 7 additives
- Enhances oxidation resistance and provides maximum protection against wear, rust and corrosion
- Applications include gasoline and propane powered vehicles – cars, trucks, RV's, commercial fleets, earth-moving equipment, off-road equipment, marine and agricultural equipment and race cars

PETRON PLUS™ Diesel Engine Conditioner

Part No. 12122

- A unique formulation of the highest quality petroleum and synthetic base stocks
- Fortified with Petron Plus™ Formula 7 to enhance oxidation resistance and provide maximum protection against wear, rust and corrosion
- Applications include diesel powered cars, trucks, RV's, commercial fleets, earth-moving equipment, off-road equipment, marine and agricultural equipment

PETRON PLUS™ Hi-Performance Synthetic Engine Conditioner

Part No. 12116

- Formulated for gasoline and propane engines from the highest quality synthetic base stocks
- Fortified with Petron Plus™ Formula 7 to enhance oxidation resistance and provide maximum protection against wear, rust and corrosion
- Super lubricating film that coats and penetrates metal surfaces to provide the longest-lasting lubricating action
- Excellent where extra lubrication, extreme wear and rust-prevention is required
- General uses include cars, trucks, race cars, RV's, commercial fleets, earth-moving equipment, off-road equipment, marine and agricultural equipment

PETRON PLUS™ Hi-Performance Engine Oil Stabilizer Plus

Part No. 12128

- May be blended with synthetic, semi-synthetic and mineral oils
- A viscosity index improver with Petron Plus™ antiwear technology
- Formulated for older high mileage engines. May be used in four, six, eight, ten cylinder gasoline and diesel engines.
- Works great in industrial gear boxes, hydraulic systems and automotive transmissions where leakage is a problem
- Formulated to be used as an additive to lubricating oil to increase oil pressure and raise viscosity with minimal effect on low temperature fluidity
- Retards oil leakage and oil consumption and provides additional antiwear and oxidation protection
- Compatible with all commercial motor oils

PETRON PLUS™ Transmission and Gear Box Supplement

Part No. 12123

- Formulated from the highest quality petroleum and synthetic stocks
- Fortified with Petron Plus™ Formula 7 additive to enhance oxidation resistance and provide maximum protection against wear, rust and corrosion
- Super lubricating film that coats and penetrates metal surfaces to provide the longest lasting lubricating action

PETRON PLUS™ FORMULA 7 Super Concentrated Fuel System Cleaner, from Fuel Tank, Multi-Port Injectors to Combustion Chamber

Part No. 20005

Petron Plus™ Super Concentrated Fuel System Cleaner, from Fuel Tank, Multi Port Injectors to Combustion Chamber is the latest technology and most concentrated and powerful gasoline supplement package offered by Petron Plus International, Inc.

This product helps clean carbon deposit build-up from gasoline engine intake systems and combustion chambers to restore lost performance, power, and mileage; thereby reducing the following: engine Knock, Ping, Run-on, Octane Requirement, and Exhaust Emissions.

This product safely removes carbon deposits from PVC system, injectors and combustion chambers, it also reduces engine sludge, and prevents rust and corrosion of the fuel system.

If used on a regular basis (once every oil change), this product will help control deposit build-up.

PETRON PLUS™ FORMULA 7 Super Concentrated Fuel Injector & Combustion Chamber Cleaner

Part No. 20000

Petron Plus™ Super Concentrated Fuel Injector & Combustion Chamber Cleaner is a premium gasoline supplement package.

Today's gasoline engines have to meet rigid standards for both fuel economy and emissions control. As a result, modern engines operate in highly sensitive environments.

Deposits anywhere in the intake system can cause driveability problems. Thus, the need for a superior deposit control product like 20000 is even greater.

This product helps clean engine deposits from intake valves and ports, combustion chambers, fuel injectors, and/or carburetors; thereby restoring engine performance, increasing fuel economy, smoothing out rough idling, and protects against rust and corrosion.

If used on a regular basis (once every oil change), it will help control deposit build-up.

Oil additives treat this:

Petron Plus™ treats all of this:
Petron Plus™. It treats the metal, not the fluid.
The one difference that makes all the difference.

PETRON PLUS™ Industrial Super Lube

Part No. 12125

- Made from a unique formulation of the highest quality petroleum base stocks available
- Fortified with Petron Plus™ Formula 7 additive technology to enhance oxidation resistance and maximum protection against wear, rust and corrosion
- Multi-purpose super lubricant designed for general maintenance use – from home to heavy industrial plant projects
- Non-flammable (500°), non-conductive, film coats and penetrates metal surfaces to give longest-lasting lubrication action (up to ten times the life of other products)
- Contains no CFC's that deplete the ozone layer
- Can be used as a metalworking lube, way oil, or on any vehicle, marine, sports gear or guns, chains, railroad equipment, farm machinery, or earth-moving/off-road equipment
- Available as spray can, 2 oz. pocket pen and gallon jugs

PETRON PLUS™ Weapon Oil

Part No. 30008

- Recommended for use in all types of small firearms
- Great for cleaning and lubricant applications from pistols, to the bores on the largest rifles and shotguns
- A light amber colored based lubricant with a cleaning agent
- Oxidation and corrosion resistant as well as rust inhibited with extreme pressure and anti-wear properties
- Works ideal on weapons carried open in or around fresh or ocean salt water
- Available in 2 oz. pocket pens

PETRON PLUS™ Hi-Temp E.P. Lithium Complex Grease

- Great for industrial applications, automotive and industrial plain and anti-friction bearings
- Ideal for hot or cold environments, wet or dry conditions, and light or heavy loads
- Special extreme pressure additives system yet contains no heavy metals or chlorine compounds
- Friendly to copper containing components at high temperature
- Excellent shear stable product with extreme pressure characteristics and water resistance
- Recommended for on and off-road equipment, fleet and commercial applications
- Excellent mobility characteristics at low temperatures

PETRON PLUS™ Hi-Temp Marine Grease

- Premium grease for all marine applications, lake or salt water
- Also used as an automotive and industrial grease with excellent shear stability, load carrying ability, water, rust and oxidation resistance
- Free of heavy metals and resists burning and exceeds NLGI GC/LB (ASTM D-4950)
- Great for severe high temperature applications, with light or heavy loads, in wet or dry conditions
- Complete with a 550+ degree dropping point, a Timken OK load of 65 lbs. and a weld point of 620kg

PETRON PLUS™ Hi-Temp E.P. Polyurea Grease

- Great for industrial applications on plain or anti-friction bearings, hot or cold environments, wet or dry conditions, and with light or heavy loads
- An environmentally friendly grease for all seasons with ashless organic thickener and extreme pressure additives system
- No heavy metals or chlorine compounds
- Friendly to copper containing components at high temperature
- Highly recommended for on and off-road equipment, fleet and commercial applications
- Excellent mobility characteristics at low temperatures

PETRON PLUS™ Hi-Temp E.P. Food Grade Grease

- Engineered specifically for the food processing and packaging industry
- Approved by the USDA as an H-1 lubricant for use in areas where incidental contact with food
- Works well in hot or cold environments, wet or dry conditions, and with light or heavy loads
- Excellent shear stable product with extreme pressure characteristics and water resistance

Racers and race teams from the following organizations have used PETRON PLUS™ products for years.

The above Trademarks are owned by the respective organizations, and are not endorsing or recommending the use of Petron Plus™ products.
